April 16, 2020

Dear Honorable Judge,

My name is Jacqueline Seda and I am a lawful permanent resident. Felix Sanchez is my son. I ask you to release my son. Our entire family is very worried about his health. He was diagnosed with cancer while he was in detention and we want to make sure he is being treated and cared for properly. Plus now we are scared that he will die from the coronavirus

If Felix is released, he will live in our home at [redacted] Bay Shore, NY 11706. There is a separate part of the house that he can stay in to isolate himself. My daughter Jacmary is a nurse and lives with us. She can help care for Felix. Our family will be there to help Felix take care of his health and comply with any requirements of immigration.

Thank you,

Jacqueline Seda
